

RING KIT

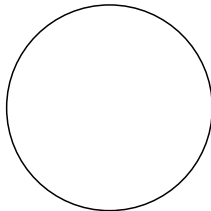

Print at 100% / Actual size. Never "Fit to page" or "Shrink to fit". Check the scale with a coin before use.

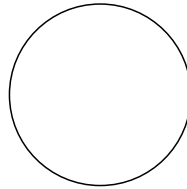

20 mm marker
keep this margin clear

PLACE ONE RING FLAT INSIDE THESE CORNERS

SCALE CHECK — the coin must fit the circle exactly (no white gap, no overlap)

27.2 mm — Rp 500 aluminium (2003 / 2016)

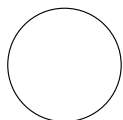

24.0 mm — Rp 500 aluminium-bronze (1991–2003)

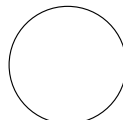

100 mm — if you have a ruler, it must read exactly 100

RING GAUGE — put the ring on the circles.

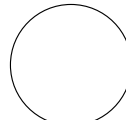

Largest circle fully visible inside the ring = lower bound; smallest circle the ring covers = upper bound.
